| Pre_Survey                                             | Pre_Survey_Q30         | Thank you sincerely for taking the time to participate in this study! To bring my research to the finish line, IÖm running a short, self-conducted experiment in the form of an online survey (about 25 minutes). As a thank-you for taking part, youÖll be entered into a draw to win two cinema ticket vouchers __! Your participation would genuinely make a difference and help strengthen the studyÖs results. If youÖd like to join, simply leave your email address below and IÖll send you the survey link. If youÖre curious about the results, youÖre very welcome to leave your email to receive a summary of the findings once the study is complete. Would you like to participate in the follow-up study? | No thanks.                                                                                                                                          | String      | FALSE              | NA                     | No explicit normalization                                                                                                       |

| Main_Survey                                            | Main_Survey_Q21                 | In the following task, you will be asked to form a mental image for a word. Unlike the previous questions, some words may refer to abstract concepts (e.g., ideas, values, emotions). There is no right or wrong way to imagine them. People often visualize these words in different ways, such as a symbol, a scene, an object, a person, a place, an atmosphere, or even just colors and shapes. Please take a moment to form a mental image for the following word: "[Field-target_word]" Take your time (about 102 minutes). If it helps, notice what comes to mind first, then add detail. You might consider: what it looks like (colors, shapes, brightness) what it contains (objects, people, symbols) where it is (setting, background, scale, distance) what it feels like (mood, tension, calm, movement) Your image can be figurative or abstract, whatever feels natural. - How vivid is the mental image you are imagining right now? | Very vivid                                                                                                                                                                                                                                                                                                                                                  | String      | TRUE               | Main_Survey_Q21_score | 1=Not vivid at all; 2=Very weak; 3=Weak; 4=Moderately vivid; 5=Quite vivid; 6=Very vivid; 7=Extremely vivid |

| Main_Survey                                            | Main_Survey_Q22                 | Please briefly describe your mental image of "[Field-target_word]" in 103 sentences. Describe it as accurately as possible (colors, components, scenes, other elements or the organization of the entire scene)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | I imagine various scenes but the consistent part was a face/head overlooking the scene which acts as the greater consciousness of the subject. I chose a scene where a subject is at an intersection of crossroads in a forest, but it is not him making the choice, but the face in the sky, who is also his consciousness, guiding him through the paths. | String      | FALSE              | NA                    | No explicit normalization                                                                                   |
| Main_Survey                                            | Main_Survey_Q24                 | Please copy the prompt you used in the text box below.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | A nostalgic scene with a memory glowing in the middle, surrounded by soft blue tones and grey clouds. The feeling is calm, emotional, and dreamlike, like looking back on an old memory.                                                                                                                                                                    | String      | FALSE              | NA                    | No explicit normalization                                                                                   |

| Main_Survey                                            | Main_Survey_Q32         | Please copy the prompt you used in the text box below.                                                                                                                                                                                                      | Create a highly detailed, photorealistic image of a vast glacier flowing like a frozen river through a rugged mountain valley. The glacier is composed of dense blue-white ice, with dramatic deep crevasses cutting through its surface, revealing layered tones of turquoise, cobalt, and translucent ice. It stretches between steep, dark, rocky ridges that rise sharply on both sides. Above, a pale, overcast sky diffuses soft, cold light across the scene, enhancing the icy textures. At the glacierÖs jagged terminus, chunks of ice are actively calving off into a milky, sediment-rich glacial lake below, tinted with a subtle teal hue. The surrounding environment is stark and desolateNo vegetation, only raw stone, scattered snow patches, and fine mist drifting through the valley. The atmosphere should feel cold, remote, and awe-inspiring, with a sense of scale and natural power. Style: ultra-realistic, cinematic lighting, high resolution, sharp textures, wide-angle composition. | String      | FALSE              | NA                      | No explicit normalization                                                                                                       |
